TUESDAY MARCH 28

COFFEE IMPORTS.

More than one billion pounds of coffee, valued at \$8 million dollars, came into the United States last year, practically all for the use of the people of the United States. The total quantity of coffee imported from foreign countries during the year, as shown by figures recently issued by the Department of Commerce and Labor through its Bureau of Statistics, was 1,112,763,546 pounds, valued at \$87,427,099, and from Porto Rico, 2,391,524 pounds, and from the Hawaiian Islands, 1,827,491 pounds. The total value of the coffee from these two island divisions of the United States being \$15,852, bringing the total quantity of coffee brought into the country up to 1,117 million pounds, and the value to \$88 million dollars. During the same period (the calendar year 1904) there was exported from the United States 44,256,947 pounds of coffee of foreign production, valued at \$4,468,592, so that the consumption of coffee during the year was approximately 1,161 million pounds, valued at about \$92 million dollars.

The figures of the world's production of coffee in the coffee year 1903-4, which has just reached the Bureau of Statistics, show that the coffee exported from the various producing countries of the world, and therefore the quantity entering the world's markets during that year, was, in round terms, 2,260 million pounds, or barely double the quantity brought into the United States alone during the calendar year 1904. It may therefore be said, in general terms, that the United States consumes practically one-half of the coffee entering the world's markets, since our importations of coffee in 1904 amounted to practically one-half of the coffee exported by all the coffee-producing countries of the world, and more than 94 per cent of that importation was retained in the United States for consumption by her people.

That the United States exceeds by far any other nation as a consumer of coffee is apparent from the fact already stated that it consumes practically one-half of the coffee of the world. Some figures just received by the Bureau of Statistics give some details, however, of the consumption by the principal countries which are of additional interest, though the latest period covered in this statement is the calendar year 1902. This shows for that year a consumption by the United States of 852,272,000 pounds of coffee; Germany, 380,820,000 pounds; France, 188,760,000 pounds; Austria-Hungary, 96,360,000 pounds; Holland, 82,500,000 pounds; Belgium, 72,600,000 pounds; Sweden, 57,420,000 pounds; Russia, 39,600,000 pounds; Italy, 35,640,000 pounds; and Great Britain, 32,340,000 pounds.

Coffee consumption in the United States has increased rapidly during recent years. The importations in the calendar year 1904, as already indicated, were 1,117 million pounds, and were larger than those of any earlier year, and the per capita consumption was also larger than that of any earlier year. The Bureau of Statistics in its statements upon this subject shows the quantity of coffee imported, exported, and the consumption per capita in each of the decennial years from 1830 to 1890, and annually from 1890 to 1904. Summarizing this table, it may be said that the consumption of coffee in the United States was, in 1830, less than 2 pounds per capita; in 1840, 5 pounds per capita; in 1850, 5.6 pounds per capita; in 1860, 5.8 pounds per capita; in 1870, 6 pounds per capita; in 1880, 6.9 pounds per capita, and in 1890, 7.8 pounds per capita.

In 1897 the consumption for the first time exceeded 10 pounds per capita, the figure being, for that year, 10.12 pounds per capita; in 1898, 11.68 pounds per capita; in 1902, 13.82 pounds per capita, and in 1904, 13.64 pounds per capita. It is proper to add that the figures for all of the years above mentioned relate to the fiscal year, except those of 1904, which are for the calendar year ending December 31, 1904, thus bringing the statement down to the very latest possible date.

The table which follows shows the quantity of coffee imported into the United States and the per capita consumption at decennial years from 1830 to 1900, and annually from 1900 to 1904, the figures, as above indicated, being in all cases those for fiscal years, except as relates to 1904, which are for the calendar year ending December 31.

Year	Imports of coffee, Pounds.	per capita, Pounds.
1830	51,483,248	2.98
1840	94,996,095	5.06
1850	145,272,687	5.60
1860	202,144,733	5.79
1870	235,256,574	6.00
1880	446,850,727	8.78
1890	499,159,120	7.83
1900	787,991,911	9.81
1901	857,019,410	11.04
1902	1,092,314,606	13.82
1903	923,353,228	11.49
1904	1,116,922,561	13.64

a Including receipts from Hawaii and Porto Rico.

HOW AIKEN WAS HURT

MAUI, March 25.—Wednesday evening, as the Oldsmobile car of the Kahului R. R. Co. was conveying J. J. Corell, Geo. Keeney, W. O. Aiken and the chauffeur from Kahului to Wailuku, just opposite the Chinese stores on the outskirts of Kahului the car struck a stone, and jumped the track, throwing two of its occupants violently to the ground. Mr. Aiken struck one of the rails, breaking the knee cap of his right leg and Mr. Keeney was severely bruised. The other two were not thrown out of the car.

A special train from Pala and Spreckelsville which was following directly behind the Oldsmobile, stopped at the scene of the accident and bore Mr. Aiken to Kahului, where the fracture of the knee pan was set by Drs. McConkey and Dinegar who fortunately were aboard the special. Then the train took the injured man to Purnell hospital, where he will be obliged to remain for six weeks at least.

The stone that did the mischief was firmly wedged in between the rails at a switch and was large enough to have wrecked the train which was following the automobile. The query is how such a large stone came to be so firmly fixed there at such a time.

The occupants of the car and train were all free masons bound to a meeting which was held later in the evening at Castle Hall, Wailuku.

THE COURT TERM.

The grand jury of the Second Judicial Circuit, in session since the 8th at Wailuku, made an extended report last Saturday and were dismissed. Among many other matters they recommended the closing of the new road at Waihee, upon which Mrs. Ahu met her death; the opening of the old road, and the discharge of Lieutenant Keane of the police force.

The petty jury is still busy, having six more indictments to try, and will finish probably some time next week.

PUBLIC WORKS.

Work on the horse-trail to the summit of Haleakala, for which an appropriation of \$5000 was made in the loan bill, will begin immediately and the project will be pushed rapidly forward in order to be completed by June 30, when, if not drawn upon, the appropriation will lapse.

Engineer Hugh Howell, having plans for other island improvements well under way will now devote his time to the narrow roadway up Haleakala. The work will probably not be let out by contract, but done by the day under the direction of Makawao road board and Engineer Howell.

It goes without saying that nothing should be allowed to block the construction of a road so important to tourist travel.

NOTES.

On Saturday last a camping party of Maui people composed of Mrs. Peck, Misses Keeney and Luthwaite, Messrs. Geo. Keeney, W. O. Aiken and S. R. Dowdle departed for Ulupalakua for the purpose of exploring the caves there. They spent the night at Ulupalakua, investigated the caverns and returned to their homes Sunday night.

The engagement of Miss Swan of Pala to Mr. Frank A. Alexander, head-luna of Pala plantation, was announced on Wednesday at a lunch party given by Mrs. W. F. McConkey to Miss Swan. Both the young people are most popular and have many friends to wish them happiness.

Sunday evening last a cosmopolitan congregation of between 250 and 300 people gathered in Pookela church, Makawao, to view forty-five stereoscopic pictures portraying the life of Christ and exhibited free of charge by Rev. W. H. Rice. Mr. Rice's remarks were interpreted into Portuguese by Rev. Mr. Santos of Pala. The meetings held during Monday and Tuesday evenings were not so well attended.

On Tuesday the steamer Nevada arrived in Kahului from Honolulu. Mrs. L. von Tempelsky and children, and Miss Carlson returned by the boat from a month's visit to the capital.

A residence for Father Charles of Makawao and Father Justin of Pala is being erected in Makawao on a lot adjoining the Makawao Catholic church.

The three mountain resorts in the vicinity of Olinda, 4000 feet up on Haleakala's slope, belonging to Messrs. H. A. Baldwin, J. B. Castle and F. L. Holz, are looking most beautiful with masses of blooming flowers, callas lilies, geraniums of many kinds and marigolds.

In spite of the drouth the crops in the vicinity of Makawao are looking green and vigorous. E. H. Bailey's fields of hay, barley, wheat, watermelons, beans, etc., are all growing finely. The hay is more than a foot above the ground.

Weather—Several light showers in localities but for the most part dry.

The Achi special committee of the Senate will meet in the Senate Chamber tonight at 7:30 to continue the hearing upon the resolution as to whether the Governor shall be advised to remove President of the Board of Health Pinkham because of his failure to enforce the recent Molokai junket of the legislature.

Tickets for the Volcano have been placed on sale at the Young Hotel, the Moana and the Hawaiian Hotel, and at the office of the Henry Waterhouse Trust Company. The main office, however, will continue to be at the place of business of Richard H. Trent, on Fort street, where all information relative to the greatest of Hawaii's natural curiosities can be obtained.

WEEKLY CROP BULLETIN.

For the Week Ending March 25, 1905.

GENERAL SUMMARY.

Honolulu, T. H., March 27, 1905.

During the past week, high barometer has been attended by steady trade winds and decidedly warmer weather. The showers accompanying the trades, however, have not been heavy except in windward Hawaii and portions of northern Kauai.

In windward Hawaii favorable weather conditions have greatly benefited young cane, other crops, and pastures; but there has been no important break in the drought prevailing in leeward districts. Shortage of water is again becoming a serious matter in the Puna district; crops are practically at a standstill in the Kau district; while in Kona the only pasturage not entirely dried up is the Hilo grass in the middle country. Kona cattle look very well, conditions considered, but many of the calves are dying and a considerable loss of stock during the next few months is anticipated. Kona coffee has stood the drought well, except at low elevations; vanilla vines have blossomed well, but the dry weather has prevented many of the flowers from coming out properly. Rain is badly needed in Oahu and leeward Maui, but young cane is growing well in most sections of these islands, under the influence of warmer weather and artificial irrigation. The drought continues in the middle and southern districts of Kauai.

Insect pests are causing considerable damage to pineapples and avocado pears in the Hilo district of Hawaii; and serious injury to the summer crop of mangoes in central Maui is threatened by a small worm which is attacking the fruit blossoms. The winter crop of pineapples is now harvested, with the exception of some fruit in central Maui. Rice continues to grow well in all sections. The forest fires in South Kona, Hawaii, and the Wahiawa district of Oahu, are now practically extinguished. In the Kona fire, it is estimated that about 3,000 acres of Ohia Lehua forest were destroyed; while the Wahiawa fire swept over from 1,500 to 2,000 acres, half of which was Ohia, Koa, and Kukui forest land on the Koolau watershed. The eruption of Kilauea, in Hawaii, continues.

REMARKS BY CORRESPONDENTS.

ISLAND OF HAWAII.

Kaunakakai—Showery weather since 20th; young cane, vegetables and pastures improving, but streams still very low and fluming of cane difficult; stripping and harvesting cane, and preparing rattan cane for crop of 1907. J. E. Gamaliel.

Hilo—Long dry spell has afforded excellent opportunity for the increase of various plant pests, notably the mealy bug and plant lice, and much damage is being done to pineapples, alligator pears and other crops through their ravages; showers during latter part of week make agricultural prospect look brighter.—L. C. Lyman.

Papaikou—Warm and showery weather favorable for preparation of land for planting; grinding; plowing and planting.—John T. Moir.

Pepeekeo—Weather warm and showery; cutting and grinding cane; clearing, plowing and planting.—James Webster.

Honolulu—Weather warmer with light showers every night; recently-planted cane and growing crops much benefited; water supply for fluming purposes increased; harvesting, plowing and planting.—Wm. Pullar.

Hakalau—Good showers during the week; nights warmer and growing conditions better; harvesting and planting.—Geo. Ross.

Laupahoehoe—Light trades and warmer weather, with showers at night; coffee and oranges blossoming freely; not enough water for fluming purposes.—E. W. Barnard.

Oakala—Fair days and rainy nights, with westerly winds.—W. G. Walker.

Panauhau—Higher temperature having marked beneficial effect on young crops, which are growing strongly.—H. Glass.

Honokaa—Good rain on night of 22nd; young cane doing well; grinding steady.—C. H. Bragg.

Niuli—Moderate rains and higher temperature favorable for growth and improved appearance of crops is noticeable; clearing and plowing land; stripping and harvesting cane.—Robt. Hall.

Kohala—Fine rains of great benefit to growing crops; planting and grinding cane.—W. O. Taylor.

Kohala Mission—Steady trades all week have brought enough rain to break the drought.—Dr. B. D. Bond.

Puakea Ranch—Warmer weather and showers have greatly benefited pastures.—A. Mason.

Puuhoe—Fine weather, with regular trade winds and daily showers; stock improving under these conditions.—S. P. Woods.

Kamuela—Light showers during week, and a start made in planting; cutworms in evidence.—Mrs. E. W. Hay.

Puuwaawaa—Cloudy weather with strong southerly winds; light showers during early part of week.—Robt. Hind.

Kealahou—Drought still continues; during the latter part of week the nights have been much warmer.—Robt. Wallace.

Kau—Northeast wind all week, with light showers; more rain at higher elevations.—F. H. Hayselden.

Naalehu—The dry weather still continues, and crops and pastures need rain very badly.—G. G. Kinney.

Pahala—Warm days and cool nights; some rain, but not enough to advance growth of crops.—H. D. Harrison.

Kapoho—Vegetation very dry and pastures short; light showers during four or five nights past.—H. J. Lyman.

Olas—Light showers during week, with present indications of more rain; harvesting continues, but no cane being flumed.—E. P. McCann.

ISLAND OF MAUI.

Kipahulu—Occasional light showers, with northeasterly winds and warmer nights; evidence of an early start.—Andrew Gross.

Nahiku—Frequent showers and warm weather favorable for the germination of garden seeds; young trees growing nicely.—C. O. Jacobs.

Haiku—Weather warmer, with light trades and gentle rains, which condi-

tions are very favorable for sisal and pineapples; harvesting and shipping winter crop of pines continues; all mango trees of district are being attacked by a small worm which feeds exclusively on the flowers and threatens destruction of entire fruit crop.—D. D. Baldwin.

Makawao—Steady trades, with occasional showers and warmer nights; crops growing rapidly, especially where they are beginning to shade the ground; pastures very poor, owing to long drought and worms, and stock is suffering seriously.—E. H. Bailey.

Kahului—Week very warm and dry, with northerly winds; light shower on morning of 25th.—R. W. Filler.

Puunene—Weather continues dry, with northerly winds, but some rain has fallen at the ditch heads; pumps running full time; harvesting proceeding rapidly.—J. N. S. Williams.

Wailuku—Cloudy weather, but with very little rain; vegetation doing fairly well; garden truck scarce; strong northeast wind on 2nd.—Bro. Frank.

Kihei—Decidedly warmer, with variable winds; conditions excellent for growth of young cane at this season, and helpful in ripening matured cane; the cane now being harvested is of exceptionally high sucrose content, and yielding well; pumping full power; harvesting and steam plowing.—James Scott.

Olowalu—Weather still very dry; light rain on mountain during week, but no increase of water in streams; pastures short, but stock in fair condition; grinding cane.—Geo. Gibb.

Kaanapali—Weather warm and dry, with strong northerly winds; pastures and crops need rain badly.—Wm. Robb.

ISLAND OF OAHU.

Waimanalo—Weather considerably warmer, but with very little rain.—A. Irvine.

Maunawili—Dry weather continues, and coffee suffers for want of rain; pastures poor, orange trees in blossom; pruning coffee.—John Herli.

Ewa—Weather dry and somewhat warmer.—Geo. F. Renton.

Waianae—The weather continues dry and warm.—F. Meyer.

Waiawa—Warmer weather during week, and pineapple plants need rain; winter crop all harvested.—W. R. Waters.

Wahiawa—Winter crop of pines all harvested; weather much warmer, but rain needed.—B. O. Clark.

Kahuku—Weather still warmer this week; very dry, but cane not suffering, as pump water is plentiful; harvesting and milling cane; plowing land for crop of 1907.—R. T. Christopher.

ISLAND OF KAUAI.

Makaweli—Warm weather with light southeasterly winds, but no rain; plowing land; grinding cane steamy.—Hawaiian Sugar Co.

Eleele—A few light showers during week, but weather still very dry; strong northeast winds.—McBryde Sugar Co.

Koloa—Light showers during week, but not enough to do any good.—P. McLane.

Lihue—Drought continues, with trade winds during days and calm, warm nights.—F. Weber.

Kealia—Light showers during nights in vicinity, but no practical relief from drought; shortage of water is interfering with growth of cane.—W. Jarvis.

Kilauea—Weather continues dry, but is becoming warmer; trade winds. L. B. Boreiko.

Hanalei—Good rains during week and pastures looking better; rice making fine progress; strong northeast wind on 23rd.—E. G. K. Deverill.

A. McC. ASHLEY,
Section Director.

A GOOD FAMILY LINIMENT.
Every family should be supplied with a bottle of Chamberlain's Pain Balm. For cuts, bruises, burns, scalds or similar injuries, which are of almost daily occurrence, there is nothing so good. It cools and soothes the wound and not only gives instant relief but brings about a speedy and permanent cure. For sale by all dealers and druggists. Benson, Smith & Co., Ltd., Agents for Hawaii.

LOCAL GREVITIES.

(From Saturday's Advertiser.)

Col. Davis, U. S. A., formerly in command at Camp McKinley, will become a Brigadier General shortly on his retirement.

An aquatic carnival will be held by the Myrtle and Heslani boat clubs in the naval slips on Saturday evening, April 22.

Dr. and Mrs. L. J. Dull of Salt Lake City, arrived yesterday on the Mongolla and are registered at the Hawaiian Hotel.

M. Rosenbladt returned yesterday on the Mongolla from a trip lasting four months, which took him to Mexico and the Southern States.

Mr. Rudolph Scherer, a wealthy New Yorker, who has visited Honolulu several times, is a through passenger on the Mongolla for Kobe.

Mr. L. A. Smart, a prominent engineer in the British government service, is a through passenger on the Mongolla en route to Hongkong.

Messrs. J. C. Milligan and W. S. Munson, wealthy New Yorkers, who have been visiting in Honolulu for several weeks, with an especial liking for Haleiwa, continue on to the Orient today in the Mongolla.

W. M. Knox and wife and Mrs. S. J. Knox of San Francisco are through passengers on the Mongolla for Yokohama. Mr. Knox was here in 1891 at the time the funeral of the late King Kalakaua was held. He was astounded at the improvements in the city since that time, and especially the Alexander Young building.

(From Monday's Advertiser)

Secretary Taft will be entertained here on his way to the Philippines by the commercial bodies jointly.

A large rock fell upon the roadway crossing Nuuanu Pali, about half way to the summit, yesterday. Sheriff Henry was notified.

"The Law of Service" will be Dr. Kincaid's subject this morning, and "Being Good Friends With God" in the evening, at Central Union Church.

Gus Schuman is going to open an automobile sale and repair shop in his former carriage repository on Merchant street. He will handle the Ford machines.

C. W. McLeod, who has been a valued plantation overseer here since 1896, will leave in the Manchuria for a vacation of four months in Prince Edward Island, his native country.

H. A. Wollberg, formerly a sergeant in Co. E. N. G. H., arrived yesterday from Hilo with his family. He is on the way to Kaula, where he will be a water luna on Kilauea plantation.

President Isenberg has called a meeting of the Hawaiian Jockey Club to consider the question of holding a meet on the 11th of June, Kamehameha Day, which has not passed without horse races for many years.

Jos. G. Pratt, postmaster-elect of Honolulu, was receiving congratulations on his appointment about town yesterday. Before he assumes the duties of the office his bond has to be perfected and sent to Washington for approval.

(From Sunday's Advertiser)

F. Klapp returned from Maui yesterday morning.

Manager C. B. Wells of Wailuku plantation is in town.

The Kamehameha Lodge will shortly give a dance in Progress hall.

Major Milsaps of the Salvation Army returned from Maui in the Claudine.

J. N. S. Williams, chief engineer of Puunene mill, arrived in the Claudine.

Rev. O. H. Gulick and Rev. A. V. Soares arrived in the Claudine yesterday.

Though the rain in town yesterday was light, yet it was rain and everybody seemed glad.

The House health committee will hold a public session tonight to consider the Honolulu sanitary district bill.

Mr. and Mrs. Perry Gavin and Miss Gavin of Pasadena, guests at the Hawaiian Hotel, will remain here several weeks.

Miss Margaret Hyde-Smith is contemplating a visit to Hawaii about May 1. She will go with Mrs. W. G. Irwin as a guest to spend some time at the attractive Irwin home in the islands.—Examiner.

This will be ladies' day at the Pacific Tennis Club courts.

Several parties of school children are spending the vacation week at Pearl Harbor.

Court Camoes regular business meeting this evening in San Antonio hall on Vineyard street.

Poll and dog taxes will be delinquent on the 31st. Ten per cent will be added to all delinquent taxes.

The police are looking for Charles Santos, who is charged with breaking the jaw of a man named Rodriguez on Saturday.

Preparations for the Hibernian dance are well under way, and it is intended to make it one of the social successes of the season.

Some mischief makers took the signs of a well known young attorney in town the other night and nailed them to trees in the Parker place on Emma street.

Trolley Park, the new beauty spot next to the power house, has been set out with well grown palms and shrubs. The lawn, since the rains, is coming on nicely.

The legislative investigation of the school department will be concluded today. School Agent Davidson, Superintendent Atkinson and the school inspectors were before the committee.

Governor Carter has not yet indicated in any way who will be chosen to succeed Superintendent of Education Atkinson. Mr. Judd has not yet submitted his report, and will not until Wednesday, probably.

HAROLD SPENCER WINS HALEIWA CUP

The contest for the Wilder cup at the Manoa Golf Club Saturday resulted in a victory for Harold Spencer.

There were eighteen entries and Spencer by securing second place in driving and approaching and eighth in putting won the match with a score of 12 points. The driving contest was won by Wade Warren Thayer, the approaching contest by Byron K. Baird and the putting contest by C. J. Hutchins. Mr. Hutchins's putting was especially remarkable as all three of his shots were better than those of any other competitor and the winning putt lay but 8-100 of a foot from the hole.

The full score follows:

12 points. The driving contest was won by Wade Warren Thayer, the approaching contest by Byron K. Baird and the putting contest by C. J. Hutchins. Mr. Hutchins's putting was especially remarkable as all three of his shots were better than those of any other competitor and the winning putt lay but 8-100 of a foot from the hole.
